

Technical Data Sheet

Rubber Super Waffle Pad - 20mm

Product Features:

Highly resilient, high performance rubber pad. Our modular design offers the flexibility, economy and convenience in every application.

Each pad comprises 81 square modules of 50mm x 50mm joined by a thin webbing to streamline cutting to any size and shape. Loading up to 75Kg per module with 3mm deflection. Cell construction is more efficient than any other design of modular pad available and effectively minimises transmission of noise and provides a higher degree of vibration / shock isolation than any other commonly used pad.

Product Details:

Size 450mm x 450mm x 20mm

Capacity Loading Recommended up to 75kg per module

Deflection 3mm - Single Layer At Rated Load

Applications:

- > Chillers
- > Pumps
- > HVAC Units
- > Vent Sets
- > Condensers
- > Transformers
- > Roller Doors
- > Saws
- > Drill Presses
- > Compressors
- > Punch Presses
- > Lathes
- > Fan Control units
- > Power Generators
- > Electrical Switchboards
- > Power Presses
- > Magnetic Bearing Chillers

PART NO	DESCRIPTION	WEIGHT
16WP10	Rubber H/Duty Waffle Pad 450mm x 450mm x 20mm	3.9 Kg Per Pad
16WP20	Rubber Waffle Pad 450mm x 450mm x 10mm	2.0 Kg Per Pad

Technical Data Sheet

Rubber Super Waffle Pad - 10mm

Product Features:

Lighter duty highly resilient, high performance rubber pad. Our modular design offers the flexibility, economy and convenience in every application.

Square cell construction is more efficient than any other design of modular pad available and effectively minimises transmission of noise and provides a higher degree of vibration / shock isolation than any other commonly used pad.

Product Details:

Size 450mm x 450mm x 10mm

Deflection 2mm - Single Layer At Rated Load

Applications:

- > Chillers
- > Pumps
- > HVAC Units
- > Vent Sets
- > Condensers
- > Transformers
- > Roller Doors
- > Saws
- > Drill Presses
- > Compressors
- > Punch Presses
- > Lathes
- > Fan Control units
- > Power Generators
- > Electrical Switchboards
- > Power Presses
- > Magnetic Bearing Chillers

PART NO	DESCRIPTION	WEIGHT
16WP10	Rubber H/Duty Waffle Pad 450mm x 450mm x 20mm	3.9 Kg Per Pad
16WP20	Rubber Waffle Pad 450mm x 450mm x 10mm	2.0 Kg Per Pad
